Paul,

Please find attached a copy of the correspondence that you requested regarding the 2004/2005 PFOA sample results at the Taconic Plastics' facility. My understanding is that you have requested this information to better understand whether Taconic had any obligation under TASCA, Section 8(e) to report the results of this sampling to EPA. If you could keep me informed as to any decisions regarding EPA's planned course of action I would greatly appreciate it. Also, I ask that you notify me prior to releasing any information and to please let me know if anyone requests this information. Thanks.

Have a good weekend.

Best,

Tom

Thomas S. Berkman

Hi, Tom. I'm just confirming the VM message that I left you. Can you please provide a copy of all of the groundwater and drinking water sampling data that Taconic (a/k/a Taconic Plastics) of Petersburg, NY provided to DEC or DOH in the 2004-2005 time frame, relating to the presence of PFOA or other PFCs? Thanks very much.
